

For My Good Neighbors

ELIZABETH GREGORY

Elizabeth Gregory – A Quilter and a Good Neighbor!

When I went back into my house, I looked up and said "Please – a Boy!"

I went shopping, found a primary colored fabric with a black background and motorcycles being ridden by dogs – cute.

I designed a quilt with the cycles fussy-cut and blocks of primary colors. The borders were Harley Davidson orange and black with their motif on the corners. Mom loved the quilt and while baby boy Domonic did not say anything, he cuddles into it nicely. WHEW!

I am not sure how I would have put a "baby girl twist" on that.

For several years I had some special neighbors across the street from me. When I had a minor house problem, Kelvin had come to my rescue a few times. My walks were often shoveled before I was even up in the mornings. It was difficult to "pay back."

So ... when he came and said his step-daughter was expecting and asked if I would make a baby quilt, I was delighted. He wanted one with a fairy motif. I discovered the colors and design and put together a quilt the Mom and daughter seemed to really enjoy.

Next year his daughter was expecting. What kind of quilt would she like? "Well, she would like a Harley Davidson quilt." OKAY!
